

YOUR EXPERT PARTNER

TRAIN INDUSTRY

WHAT WE OFFER

- Professional project management and engineering support.
- A value-creating approach to your challenges and needs.
- Short and effective start-up process.
- The right consultant with the right skills for your project.

WHO WE ARE

KP Consulting was established in 2006 and added a branch in Israel in 2014. We have extensive international experience in executing projects in a variety of areas such as project management, business development and quality assurance.

We strive to lead our clients successfully from the beginning to the end of a project. In our work we rely on our in-house employees as well as our large network of dedicated professionals.

ACHIEVEMENTS IN THE TRAIN INDUSTRY

- Establishment of processes and Quality Assurance of IC3 fleet for Israel Railways.
- Establishment of HSE processes for Stadler.
- Technical project management and coordination for DSB maintenance.
- Execution of several larger tender projects e.g. the Oeresund project for Arriva Trains.
- Refurbishment of X2000 for ABB.
