

YOUR CONSULTING PARTNER

IN TRAIN AND RAILWAYS BUSINESS

AS OUR CUSTOMER

you will get access to a network of dedicated train and rail professionals. Our mission is to ensure that you succeed in executing your project and achieving your goals by delivering the right competencies for the task.

KP Consulting is a 10+ year old consulting company with experience from train manufacturing, service providing and train operations. We have more than 50 man-years experience within these areas.

We have been responsible for the winning strategy on train maintenance on the Danish operation tenders.

In Israel, we have for 5 years repeatedly been awarded to execute Quality Assurance for Israel Railway and executed 3. parts quality inspection on Alstom maintenance regime.

At Aarhus Light Rail Project in Denmark we have advised on workshop layout, environmental and safety regulations, implemented QHSE process and executed 3. parts quality inspection for Stadler.
